TASK 6 Prediction using Decision Tree

BY SANA TALYARKHAN TADVI

TASK- ● Create the Decision Tree classifier and visualize it graphically

In [46]:
```
#import the liberaries
import pandas as pd
import numpy as np
from matplotlib import pyplot as plt
from sklearn import datasets
from sklearn.tree import DecisionTreeClassifier
from sklearn import tree
```

In [47]:
```
#UPLOAD THE DATASET

iris = datasets.load_iris()
print("Iris dataset loaded successfully")
```

```
Iris dataset loaded successfully
```

In [48]:
```
Iris = pd.DataFrame(iris.data, columns = iris.feature_names)
print(Iris.head(15))

y=iris.target

print(y)
```

```
    sepal length (cm)  sepal width (cm)  petal length (cm)  petal width (cm)
0                 5.1               3.5                1.4               0.2
